## City & Parkland Views Forever

This lively location offers everything the heart desires. Only 10 minutes from the CBD, with established open space and a growing choice of restaurants, shops and activities, it mixes business with pleasure in just the right way. Greenslopes has been one of Brisbane's hidden treasures. Situated on level 6, this apartment is one of the few remaining with such stunning views of the city and surrounding parkland areas.

The main bedroom is bathed in light with doors opening onto the generous balcony, whilst the second bedroom has its own private wing away from the living areas.

Not forgetting the large study area, also tucked away for peaceful studying or a private area to curl up and have a read of your favourite book.

Lets appreciate the intricate detail and high-quality fittings, fixtures and finishes of each stunning apartment, with extended ceiling height, which enhances the feeling of space
